Policy on Management of Radio Frequency

*** Based on the current Houston Hawks Frequency List and availability, new members can reserve their Primary Frequency by submitting a Houston Hawks membership application and dues. New Members will be responsible for the purchase of crystals for that frequency within 30 days of becoming a member. The frequency will remain closed for the duration of the year and will be renewed for another year upon timely payment dues and maintenance of the membership. If the holder of the closed frequency fails to renew their membership by January 31, the frequency will become open and available for reassignment to another new or existing member. (Houston Hawks retains the right to alter this rule, and / or until such time that all frequencies are full.)**

New members are encouraged to use frequencies not in use by current members. If a Membership expires, that frequency will become available for use by others. This helps to maximize the flight time for all members by preventing frequency conflicts during contests, and fun fly.

Thank you for your cooperation in this area...
